

THE HUMANE SOCIETY OF BOULDER VALLEY

The People Behind the Animals

Dear Friends

Dear Friends of the Humane Society of Boulder Valley,

There are thousands of stories represented in these pages. Stories of hope, survival, reunions and love, all possible because of the support we have received from you our donors, volunteers and clients. Thank you for making 2006 another year of success for the Humane Society of Boulder Valley and the 8,000 animals who we have sheltered and cared for this year.

In 2006 we once again maintained our 85% live release rate, which represents those animals we are able to reunite with their guardians and the animals we adopt into new homes. To reach this strong goal, we have continued to expand the rehabilitation programs we can provide each animal in need. Programs like those described in the pages to follow that give individualized attention from medical needs to training to fostering, ensure we can save the lives of animals who without us would face an uncertain future.

A very exciting project began this year, the construction of our new and expanded Training and Behavior Rehabilitation Center. Opening in March of 2007, this Center, built on the second floor over our Veterinary Clinic, will greatly enhance the training programs of the Humane Society of Boulder Valley. In bringing our Training and Behavior Center on site, we aim to decrease the number of animals euthanized due to behavior issues by increasing the training available to guardians and their pets. And we will increase the training skills of our staff and volunteers who work with our shelter animals. Our goal is to improve the human-animal bond shared between pets and people.

We increased the number of animals we transferred from other shelters in our region and beyond, saving the lives of 2,250 transfer animals in 2006 alone. Extending our care and compassion beyond our own community is possible because of the wonderful adopters who come to the Sonny Center everyday in hopes of finding a new family member. Your support through financial resources, volunteer hours and advocacy make all of our programs and services possible.

Thank you again for all you do for the animals of the Humane Society of Boulder Valley. Together we can save animals and improve lives.

Sincerely,

A handwritten signature in dark ink that reads "Susie Eitel Cabell". The signature is written in a cursive, flowing style.

Susie Eitel Cabell, President

Our Mission

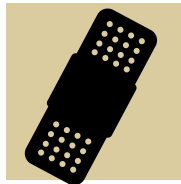

Providing over 100 Years of Care

It is the mission of the Humane Society of Boulder Valley to protect and enhance the lives of companion animals by promoting healthy relationships between pets and people.

Thanks to our supporters, the Humane Society of Boulder Valley has met the needs of thousands of animals for over one hundred years. A group of community volunteers founded our shelter in 1902, and that spirit of caring has continued to guide our important work.

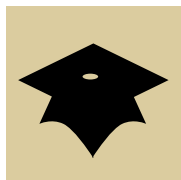

Protecting

Safe Haven Program

Working together with Safehouse Progressive Alliance for Nonviolence and the Emergency Family Assistance Association, the Safe Haven Program provides short-term care and boarding for pets whose guardians are in crisis situations. Animals are provided with medical care and safe housing for a maximum of six weeks. In 2006, the Humane Society provided care to 24 of these animals, representing over 639 boarding days.

Cruelty Investigation

In 2006, Animal Care and Control investigated 339 welfare cases and we sheltered 95 animals involved in neglect and cruelty cases. The Humane Society of Boulder Valley works closely with local law enforcement, social services, and child protection agencies to promote compassion and improve the quality of life in our community. Whatever the concern, seven days a week, 24 hours a day, the Humane Society provides animal rescue in Boulder.

SART - State Animal Response Team

The Humane Society of Boulder Valley participates in the State Animal Response Team. SART unites over fifty organizations, including emergency response agencies, state agencies, local governments and private non-profits, and is charged with rescuing and protecting animals during disasters.

Healing

Medical Rehabilitation

Through our medical rehabilitation program we can ensure each animal gets the individualized attention they need to regain their health. Over 40% of the animals we shelter need some level of medical treatment while in our care. The rehabilitation program aims to stabilize and treat every wounded and sick animal that comes through our doors until their guardians can be located or the animal can be placed in our adoption center.

Veterinary CARE Program

Through our veterinary CARE program we can assure that companion animals receive the medical care they need and can remain in the home with their guardian by providing subsidized medical care and spay/neuter surgeries to clients who qualify as low income. In 2006, The Veterinary Clinic provided over 350 discounted treatments and over 40 surgeries and 164 subsidized spay and neuter surgeries.

Matchmaking

Pet Adoption

Our progressive adoption program places thousands of lost, abandoned and unwanted companion animals with loving guardians. Anyone interested in adopting can visit the shelter or our website, www.boulderhumane.org to see photos and descriptions which is updated hourly. At the Humane Society of Boulder Valley we are committed to finding homes for healthy and treatable animals. Last year 4,247 animals were adopted.

Transfer Program

Our Transfer partners – animal shelters from Colorado, neighboring states and Mexico – rely on us to accept animals from their overcrowded facilities. Our staff and volunteers dedicate time and resources to help these animals find homes. Animals that without this program would have faced an uncertain future. Last year 84 organizations transferred 2,252 animals to the Humane Society of Boulder Valley.

Foster Care Program

Foster families make it possible to help more animals by providing the individualized care animals need to become healthy. Animals with special needs thrive in our foster homes. Thanks to the dedicated efforts of 107 foster volunteers, 697 animals were cared for in temporary homes until they were placed in the adoption center.

Pet Care Crew

The Pet Care Cruiser is a highly successful volunteer effort that allows us to take pets available for adoption to key locations throughout our community, including retail sites, local malls, corporations and community events. Last year over 33,980 people visited our animals on board the Cruiser which resulted in 69 adoptions. To schedule the Pet Care Crew to visit your location call 303-442-4030 x655.

At the Humane Society of

Boulder Valley we are committed

to finding homes for healthy and

treatable animals. Last year 4,247

animals were adopted.

Reuniting

Reuniting Pets and Guardians

With City of Boulder Animal Care and Control officers on call 24 hours a day, they make sure animals will be safely returned to their guardians. We scan every animal in our care for a microchip to facilitate animals being reunited with their families.

Keep your pet safe with a collar and identification tag, and a microchip. Microchipping is available through our Veterinary Clinic and at the time of adoption. Keep your cat safe indoors, away from predators and other dangers.

The Humane Society of Boulder Valley programs make a difference in people's lives.

AniMeals

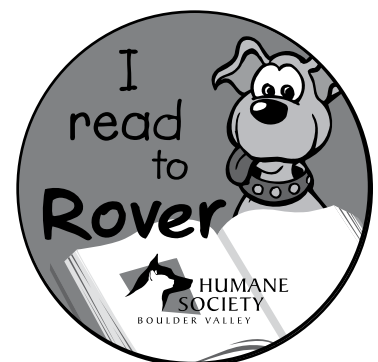

Community Food Share clients receive pet food from the Humane Society for their companion animals. Food is collected by the Humane Society, and distributed by Community Food Share to several programs for people in need.

Animal Assisted Therapy and Pet Visitation

Our trained volunteers visit senior and juvenile facilities throughout Boulder County to cheer the hearts of residents and promote wellbeing. Visits are provided year round and free of charge.

Read to Rover

The Humane Society of Boulder Valley collaborates with the Louisville Public Library, Family Resource Center and Pioneer Elementary School to connect therapy dogs and children as part of their reading programs. Children pair off with a trained therapy dog, coupled with the dog's guardian, for one-on-one reading sessions.

Teaching

Training and Behavior Program

The Humane Society of Boulder Valley is on the forefront of behavior rehabilitation for shelter animals in our country — several pilot programs that are now standard in the industry were piloted here. National behavioral studies continue in our shelter in an effort to find treatments that are the most effective and successful for our animals. Our new Training and Behavior Center scheduled to open in March 2007 will make it even easier for our shelter animals to receive one-on-one individualized training time they need to flourish in a new home.

Court Program and Grumpy Growlers Class

The Humane Society of Boulder Valley, in partnership with the City of Boulder, evaluates and provides intervention programs for dogs in the community who received an aggressive animal summons. The goal of the program is to offer professional unbiased information about the dog and guardian. This information can then guide the court in implementing sentencing that may help the guardian to better manage problem behavior.

Dogs who have difficulty with other dogs and/or people can attend our Grumpy Growler classes. The goal of the program is to teach dogs and clients to have a more harmonious relationship with the community. Skills are taught for the management and prevention of problem behavior. In 2006, over 114 clients and their dogs received services from the Court Program and the Grumpy Growler classes.

Camp Happy Tails

Working in partnership with the YMCA, Camp Happy Tails offers a unique experience to give campers a chance to make a difference in the lives of the homeless animals. In 2006, over 250 children participated in day camp activities, including learning about responsible pet guardianship and other humane topics.

Caring

Web Site – www.boulderhumane.org

The web site is the fastest way to find program descriptions, information on upcoming events, volunteer opportunities, pet care tips, sign up for classes and much more. You'll find photos and descriptions of the animals available for adoption and the web site is updated constantly!

Thrift and Gift Shop

Thanks to your generous donations of household items, clothing and furniture, the Thrift and Gift Shop raised \$133,355 in 2006 to help support our programs at the Humane Society. Located at 5320 Arapahoe Avenue, the Thrift and Gift Shop is a great place to shop, donate, and volunteer. Call 303-415-0685 for more information.

Humane Society Bequest Society

The Humane Society of Boulder Valley Bequest Society recognizes those individuals who make a legacy of care possible for the animals we serve. The bequests of donors over the decades help us build a strong institution that meet the ever changing needs of the animals. For more information about the Bequest Society, call 303-442-4030 x629.

Volunteer Program

In 2006, 600 volunteers contributed more than 65,000 hours to caring for the animals, raising funds, assisting with outreach and working in our retail centers. Our volunteers make a difference in the lives of homeless animals every day. For information on volunteering, visit our website, www.boulderhumane.org.

Companion Care for Life

After a guardian's death the future of their companion animals can be uncertain. The Companion Care for Life Program assists in making the best possible arrangements for the care of your animals when you are no longer able to provide for their needs. For more information on the Companion Care for Life Program call our Development Department at 303-442-4030 x629.

Mexico Update

In 2006, 29 dogs found their way to the Humane Society of Boulder Valley from Monterrey in the State of Nueva Leon, Mexico. Through a grant from The Summerlee Foundation, the Humane Society of Boulder Valley is working in alliance with Saving Animals Across Borders to support shelter development in Mexico. A critical piece of this support is to give some healthy animals in Monterrey the opportunity to find a new home through our Transfer Program.

Last year, members of our staff traveled to Monterrey to share expertise with their shelter staff and veterinarians about animal sheltering and adoption protocols. Recently, veterinarians and shelter staff from Monterrey spent a week in Boulder visiting our facilities and learning first hand how our shelter operates.

An estimated 70,000 animals enter shelters in the State of Nueva Leon annually and 95% of them are euthanized. Saving Animals Across Borders, the Humane Society of Boulder Valley and The Summerlee Foundation are working together to curb animal overpopulation in the area and decrease the rate of euthanasia of healthy animals. The mutual goal is to create an environment and infrastructure allowing for animal adoption in Monterrey.

In 2007, with donated flights from Continental Airlines, the Humane Society of Boulder Valley expects to bring 25-50 more dogs from Mexico to our shelter.

Through a grant from The Summerlee Foundation, the Humane Society of Boulder Valley is working in alliance with Saving Animals Across Borders to support adoptions and animal sheltering in Mexico.

The Humane Society of Boulder Valley follows the guiding principals of the Asilomar Accords and the Metro Denver Shelter Alliance for keeping uniform statistics.* The Annual Live Release Rate for the Humane Society of Boulder Valley dogs and cats is 85%. The Annual Live Release Rate does not include 388 guardian requested euthanasia which were unhealthy/untreatable and 62 animals that died or were lost in the shelter.
