

Dog / Dog Interactions Supplemental Questionnaire

When do the problematic interactions occur? (circle all that apply)

- On leash
- Off leash
- Behind fences (fence fighting with another dog)

Has your dog ever lived with another dog?

- Yes
- No

*If yes, was the situation successful?

- All of the time
- Most of the time
- Rarely

*Please describe the *unsuccessful* situations. Did the problems occur (circle all that apply)

- Around food / rawhide / toys
- Around dog beds / couch / other favorite resting places / doorways
- When one dog received attention and the other dog approached

Does your dog *currently* play or interact companionably with any other dogs?

If yes, please describe including number of playmates / companions.

Does your dog have any *history* of playing with other dogs?

- Yes
- No

*If yes, please describe the history:

- Played at dog park with new dogs
- Played with specific known playmates only
- Played with other resident dog only

*What was the length of play history before problem began?

- Played well with other dogs for several years
- Played well for months until problem began
- Played well for days until problem began

How does your dog react to *seeing* other dogs?

- Appears wildly excited, but fighting occurs upon meeting

- Appears fearful of other dogs
- Usually ignores or seems uninterested until other dog is too close, then lunges and growls

How does your dog *interact* with new dogs upon meeting them?

- Dog is not allowed to interact with new dogs
- Dog is pickier about play partners now, plays less than he used to, and will snap and snarl if uninterested in playing
- Dog plays well unless there is food, a toy, or chew bone around
- Appears excited, but fighting occurs when they meet
- Seems fearful, hides, snaps, bares teeth
- Usually plays, but sometimes targets a specific dog and repeatedly harasses
- Begins to play, but fighting breaks out after a few minutes
- Treats other dog as “prey” and will attempt to harm, maim, or kill other dog
